

## Maths

- **Whole Number** – Counts to 30 and orders, reads and represents numbers in a range of 0-20.
- **Addition and Subtraction** – combines, separates and compares collections of objects, using everyday language, and records using informal methods.
- **Time** – sequences events, uses everyday language to describe the durations of events, and reads hour time on clocks.
- **3D Shape** – manipulates, sorts and represents three-dimensional objects and describes them using everyday language.
- **Position** – describes position and gives and follows simple directions using everyday language.

## English

- Writing** – Further developing sentence writing skills.
- Reading** – using strategies to decode words and read simple texts with comprehension skills.

## Science

- Weather In My World**  
Students' beliefs and understandings about the air, sun and wind will be developed as they work through hands-on activities. Through investigations, they will increase their knowledge of how the characteristics of weather affect their lives.

## Geography

- My Special Places -**  
Students explore features of their local environment by using their senses of sight, hearing and touch. By using the classroom and particularly the local environment, students discover and explore features of their immediate environment.

## Early Stage 1 – Term 3 Overview

## What we're learning...
